DESCRIPTION

The SRC / VHF course is a one day shore based course followed by an assessment which takes between 30min and 1 hour. Participating on our VHF course (including GMDSS) requires some pre-course studying from your side. Once you book your place on the course we will send you the VHF RADIO (including GMDSS) Course Handbook G31 to read. This pre course reading (approx 3 hours) is vital as there is no time during the day to teach the essential theory to enable you to understand the practical aspects of the course. The classroom SRC/VHF radio course and assessment starts at 09.00 and will end at approximately at 18.00. At the end of the course you will receive a RYA SRC Certificate of classroom course completion which allows you to participate on the exams. The assessment will take about 1 hour during which you will be tested on your home study and course content.

Candidates are expected to have the basic knowledge of the phonetic alphabet and the operation of VHF's and should bring the G31 handbook with them.
